Highlighting — Rating Unrated Books

For the last several years NLS has been able to add about 1,000 titles a year from commercial audio publishers. Since they do not have copies of the physical books, they can’t rate the books in the way patrons have come to expect. Across the network, a small sample shows that patrons with some exclusion varies from 54% to 76%.

Since this results in a limited selection for those patrons, librarians in the network are developing a process of collaboration to get these unrated books rated. This will result in patrons having the maximum number of books to select from.

We started with a pilot team that included Colorado, Idaho, Illinois, New Mexico, Texas and Keystone. Here in Colorado we are aiding in this effort with a team of volunteers reading books and helping to rate them. So far since January, we have rated 70 books.

By the time you read this we will have signed on other states at the national NLS Biennial Conference in April. We hope to rate all 1,000 each year.
From the Director

By now you probably have spoken with our newest Reader Advisor, Katherine, who joined CTBL last September. She returned home to Colorado after graduating with an MLIS from Simmons College in Boston, and working with the diverse and bustling community at the Cambridge Public Library. She is responsible for the summer reading program and enjoys a lot of young adult books. Katherine will also be working with our Spanish speaking patrons. A belated welcome to Katherine.

Leaving on My Own Terms — Update

In July we launched a yearlong exploration into living, dying, grief and legacy. Elisabeth Kubler-Ross stated in Life Lessons, “The primary lesson the dying teach us is to live every day to its fullest.” This is our guidance as we begin our year of inquiry.

We began with a Before I Die wall at the Patron Open House and for CTBL Reads we read “Being Mortal” by Dr. Atul Gawande and Proof of Heaven by Dr. Eben Alexander. We had two Death Cafés hosted by Dr. Karen Wyatt. We explored “Out of the Box Funeral Planning” led by Sue Mackey and explored “No Regrets” with Kitty Edwards. We conclude with CTBL Reads, listed above.

It has been a wonderful journey and thanks to all who participated.

Tech Talk — Assistive Technology

Assistive Technology (AT) devices are anything that helps a person complete a task they might otherwise need help to do. AT devices are not necessarily high tech, but can be simple devices such as a “grabber” used to reach an item that is on a high shelf.

Assistive Technology Partners has resources for finding, funding or using any type of AT device available on their website:

The American Foundation for the Blind has resources specifically related to blindness or low vision products:

Volunteer News — Different Perspectives

As the Volunteer Manager, I find it fun to stop once in a while and consider how our library looks to someone who is just visiting us for the first time. Because I frequently give tours to prospective volunteers, this fresh point-of-view is frequently shared with me. Visitors are often fascinated by something I walk by every day and stopped noticing long ago. Sometimes it is the dusty old talking book machines in the front lobby, or maybe the way our collection seems to go on endlessly, row after row of neatly stacked blue cases. Sometimes it is the sounds that fade into the background, tapes rewinding, embossers pounding, and the familiar chatter of co-workers discussing the Denver Broncos.

Then came the day I handed an iPad to a student volunteer and asked her to take some pictures for “later”. She saw the library in a whole new way; looking at rows and rows of books, not just along the rows, but from the bottom to the top. Not just a bin full of audiobooks returned in the mail, but the colors and textures jumbled together — seeing everyday objects in a whole new way.

Each new member of the CTBL team whether staff, volunteer, or patron experiences the library as something new the first time they receive a talking book and pop it in their player, the first time they hit “record”, the first time they man our booth at an outreach event. So, while we have a long and successful history, every day someone sees the Talking Book Library for the very first time and it opens a whole new world to them. — Terry Marcotte

Legacy Gifts

Legacy gifts to the Friends of CTBL are a vital way to ensure ongoing support for all the services the library provides to patrons. The Friends have established Eyes to the Future that honors and recognizes the generosity and vision of patrons, families and friends who have chosen to leave a legacy through their estates or other deferred gifts.

We invite you to become a member of Eyes to the Future. Enrollment in this honorary group is simply a matter of advising us about your plans to make a legacy gift, such as a bequest in a will or living trust, or designating The Friends of CTBL as beneficiary of an individual retirement plan, 401(k) or life insurance policy. The Friends of CTBL is a public 501 (c) (3) charity and the tax ID is 23-7243950.

Contributions to The Friends of the Colorado Talking Book Library and The Colorado Talking Book Library

An additional way to contribute to either the Friends or to CTBL is through a charitable bequest as part of a will or through life insurance. You do not have to rewrite your current document but can add a written amendment called a codicil. Such a bequest only becomes irrevocable at your death. Giving to the library helps support the programs and service we provide to our patrons and helps to secure the future.
